

**We
practice
like this!**

**Respectful & Empathetic,
Trauma-informed, Evidence -
based, ABA-free**

We

- **Advocate for Disability Rights & Civil Rights**
- **Advocate for equitable inclusion, & unrestricted access to supports, modifications, and accommodations**
- **Are ethical billers in all settings**
- **Are ethical sellers of therapy, parent materials, apps, & programs**
- **Provide therapy that is respectful of neurodivergence, autistic differences and sensory processing differences**
- **Presume competence & respect personal agency** 
- **Apply a Strength-Based Approach**
- **Are unapologetic in our opposition to the use of ABA, including Positive Supports & Positive Reinforcement (PBS and PBIS)**
- **Are humane, trauma-informed feeding therapists**
- **Believe robust AAC is for everyone, with no gatekeeping, with immediate access to core language, aided language stimulation, & AAC modeling**
- **Respect body autonomy**
- **Do not engage in Seclusion or Restraint in our Practices**
- **Do not act as Social Skills Trainers or Interventionists**
- **Practice with cognizance of the potentially harmful effects of social skills programs that promote masking**
- **Honor & uphold the dignity & humanity of every client, student & patient we serve**
